

# ANNUAL EXAMINATION – 2012-2013

INTERNAL ASSESSMENT TO LISTENING SKILL

Class – V I

Aural

M.M.: 10

Nature is always destroying and creating new landscapes. For instance, waves continually crashing on cliffs or rocks on the beach break pieces off the rock and over time, reveal sea stacks and sea arches standing in the sea. In places where waves cannot do this work, such as in deserts, winds chip in. It took the erosive forces of nature like wind and water millions of years to create the painted desert, a region in Northern Arizona, in the United States, that is noted for bright multicoloured rock formations running across its eroded landscapes. Glaciers are the most erosive forces of nature capable of creating valleys and carving out mountains. Volcanoes, one of nature's most awesome forces, are capable of creating new islands and helping plants grow by making soil fertile.

While the forces of nature continue to create some of the greatest spectacles on earth, we as citizens of earth, can either ruin the natural world that sustains us, or preserve it so that the earth will always be home to life and spectacles.

Answer the following questions by filling in the right option in the circles given:

- 1- The forces of nature as narrated in the passage are -
- a) Waves
  - b) Winds
  - c) Glaciers and volcanoes
  - d) All the above
- 2- Nature is always -
- a) Destroying
  - b) Creating
  - c) Destroying and creating new landscapes
  - d) None of these
- 3- In places where waves cannot do anything there -
- a) Volcanoes work
  - b) Winds chip in
  - c) Glaciers penetrate
  - d) All of above
- 4- What have winds created?
- a) Sand dune
  - b) Lagoon
  - c) Painted Desert
  - d) None of these
- 5- Where have winds created this landscape?
- a) Northern Arizona
  - b) Southern Arizona
  - c) Amazona
  - d) None of these
- 6- In which state is this landscape?
- a) United Kingdom
  - b) United Arab
  - c) United Front
  - d) United States
- 7- Which are the most erosive forces of nature?
- a) Winds
  - b) Waves
  - c) Glaciers
  - d) Volcanoes
- 8- Name the Nature's most awesome forces of earth -
- a) Waves
  - b) Volcanoes
  - c) Winds
  - d) None of these
- 9- We, as citizens should -
- a) Ruin the spectacles on earth
  - b) Preserve the spectacles on earth
  - c) Both
  - d) Only b
- 10- Give a suitable title to the passage -
- a) Life on earth
  - b) Sustaining life on earth
  - c) Forces of Nature
  - d) Destruction
